      <description>The U.S. monthly international trade deficit increased in December 2023 according to the U.S. Bureau of Economic Analysis and the U.S. Census Bureau. The deficit increased from $61.9 billion in November (revised) to $62.2 billion in December, as imports increased more than exports. The goods deficit increased $0.7 billion in December to $89.1 billion. The services surplus increased $0.4 billion in December to $26.9 billion. <!--Full Text Link--><a href='https://www.bea.gov/news/2024/us-international-trade-goods-and-services-december-and-annual-2023'>Full Text</a><!--Full Text Link--></description>

  <link>https://www.bea.gov/news/2023/gross-domestic-product-puerto-rico-2021</link>
  <guid isPermaLink="true">https://www.bea.gov/news/2023/gross-domestic-product-puerto-rico-2021</guid>
  <description>Real gross domestic product (GDP) for Puerto Rico increased 4.0 percent in 2021 after decreasing 6.2 percent in 2020. The increase in real GDP in 2021 primarily reflected an increase in personal consumption expenditures. Private fixed investment also increased. These increases were partly offset by decreases in exports, private inventory investment, and government spending. Imports, which is a subtraction item in the calculation of GDP, increased. <!--Full Text Link--><a href='https://www.bea.gov/news/2023/gross-domestic-product-puerto-rico-2021'>Full Text</a><!--Full Text Link--> | <!--Full Text Link--><a href='https://www.bea.gov/news/2023/producto-interior-bruto-para-puerto-rico-2021'>En español</a><!--Full Text Link--></description>

    <title>Direct Investment by Country and Industry, 2022</title>
    <link>https://www.bea.gov/news/2023/direct-investment-country-and-industry-2022</link>
    <guid isPermaLink="true">https://www.bea.gov/news/2023/direct-investment-country-and-industry-2022</guid>
    <description>The U.S. direct investment abroad position, or cumulative level of investment, increased $212.2 billion to $6.58 trillion at the end of 2022 from $6.37 trillion at the end of 2021, according to statistics released today by the U.S. Bureau of Economic Analysis. The increase reflected a $172.8 billion increase in the position in Europe, primarily in the Netherlands and the United Kingdom. By industry, manufacturing affiliates had the largest increase. The foreign direct investment in the United States position increased $216.8 billion to $5.25 trillion at the end of 2022 from $5.04 trillion at the end of 2021. The increase mainly reflected a $142.2 billion increase in the position from Europe, with the largest increases from the United Kingdom and Germany. By industry, affiliates in manufacturing and wholesale trade accounted for the majority of the increase. <!--Full Text Link--><a href='https://www.bea.gov/news/2023/direct-investment-country-and-industry-2022'>Full Text</a><!--Full Text Link--></description>

  <title>Gross Domestic Product, Gross Domestic Product (Third Estimate), Corporate Profits (Revised), and GDP by Industry, Third Quarter 2020</title>
  <link>https://www.bea.gov/news/2020/gross-domestic-product-third-estimate-corporate-profits-revised-and-gdp-industry-third</link>
  <guid isPermaLink="true">https://www.bea.gov/news/2020/gross-domestic-product-third-estimate-corporate-profits-revised-and-gdp-industry-third</guid>
  <description>Real gross domestic product (GDP) increased at an annual rate of 33.4 percent in the third quarter of 2020, as efforts continued to reopen businesses and resume activities that were postponed or restricted due to COVID-19. The change was 0.3 percentage point higher than the "second" estimate released in November. In the second quarter of 2020, real GDP decreased 31.4 percent. Profits increased 27.4 percent at a quarterly rate in the third quarter after decreasing 10.3 percent in the second quarter. Corporate profits increased 3.5 percent in the third quarter from one year ago. Profits were boosted by provisions from the Paycheck Protection Program. Private goods-producing industries increased 47.2 percent, private services-producing industries increased 35.1 percent, and government increased 10.1 percent. Overall, 21 of 22 industry groups contributed to the third-quarter increase in real GDP. Mining decreased in the third quarter. <!--Full Text Link--><a href='https://www.bea.gov/news/2020/gross-domestic-product-third-estimate-corporate-profits-revised-and-gdp-industry-third'>Full Text</a><!--Full Text Link--></description>

<description>Real state personal income grew 2.4 percent in 2019 after increasing 3.1 percent in 2018, according to estimates released today by the Bureau of Economic Analysis (BEA). Real state personal income is a state's current-dollar personal income adjusted by the state's regional price parity and the national personal consumption expenditures price index. The percent change in real state personal income ranged from 4.1 percent in Maine to 0.7 percent in Hawaii, Wyoming, and Rhode Island. Across metropolitan areas, the percent change ranged from 7.6 percent in Hanford-Corcoran, CA, to -3.2 percent in Panama City, FL, and Wheeling, WV-OH. <!--Full Text Link-->Full Text<!--Full Text Link--></description>

<description>The Bureau of Economic Analysis (BEA) today released its 2007 Benchmark Input-Output
(I-O) Account of the U.S. Economy. This widely used account--which provided the foundation for BEA's
2013 comprehensive revision of its gross domestic product (GDP) statistics--offers a comprehensive
picture of the inner workings of the U.S. economy, showing production relationships among nearly 400
industries and commodities. <!--Full Text Link--><a
