BEA Data Application Programming Interface (API)

Note to users: Our API is now hosted on a new subdomain: **https://apps.bea.gov**. API users **must** use this new subdomain to retrieve data.

What is it?

The data API provides programmatic access to BEA published economic statistics using industry-standard methods and procedures. BEA's data API includes methods for retrieving a subset of our statistical data and the meta-data that describes it.

The data API and its documentation are for programmers who are familiar with the concepts and techniques of retrieving data from Web Services.

What is available?

 [API User Guides \(/API/docs/index.htm\)](/API/docs/index.htm)

UnderlyingGDPbyIndustry New	Underlying Detail estimates of value added, gross output, and intermediate inputs by industry.
InputOutput	Make and use tables, direct requirements, and total requirements statistics.
Regional	Detailed income and employment statistics by state, county, and metropolitan area. Detailed GDP statistics by state and metropolitan statistical area. Price parities statistics by state and MSA.
NIPA	NIPA tables with options.
NIUnderlyingDetail	NI Underlying Detail tables with options.
FixedAssets	Fixed Assets tables with options
ITA	International Transactions dataset by indicator, area or country, frequency, and year
IntlServTrade	International Services Trade dataset by type of service, trade direction, affiliation, area or country, and year
IntlServSTA New	International Services Supplied Through Affiliates dataset by channel, destination, industry, area or country, and year
IIP	International Investment Position dataset by type of investment, component, frequency, and year
GDPByIndustry	Estimates of value added, gross output, intermediate inputs, KLEMS, and employment statistics by industry
MNE	Direct Investment by direction of investment, series, classification, year, country, and industry; and activities of Multinational Enterprises (MNE) by direction of investment, ownership, bank/non-bank, series, classification, year, country, industry, and state.

Have questions about our data ?
